The Bulletin.

PIED FORM.

The local page of THE BULLETIN was pied—knocked into pieces—last night, after all the workmen had gone to their homes, while the pressman was in the act of putting it upon the press. This accident puts us to great inconvenience and much expense, and deprives our readers of a large amount of interesting local matter. We therefore regret the accident both for ourselves and our patrons. We are sure we will have the sympathy of those who know what an infernal mean thing a pied newspaper form is; and the readers of THE BULLETIN have our sympathy, because we know how much they will regret not to be enabled to read the local page this morning.

**THE NEW
WALTHAM!**

The past twelve months at the Waltham Watch Factory have been the busiest in the Company's history. Several wholly new stem-winding watches have been produced, and great improvements have been effected in the manufacture of all variety of their standard watches, until now they include every size in both key and stem-winding, that can be desired, of every quality and of every price. At the same time new inventions in machinery and other large economies, have cheapened the cost, so that at present it is not too much to claim that the Waltham Watches are the best and cheapest watches in the world. These claims are, in fact, almost everywhere admitted. In this country it is a matter of fact that hardly any fine American watches are sold but those of the Waltham make, while orders are now regularly received from England, Australia, and the British Possessions generally, and foreign countries are abandoning the hand-made productions of Switzerland and England, and eagerly adopting American machine-made Waltham watches in their place.

Buyers of silver watches should be careful to observe the stamp of the Company on the case, as well as on the movement, as the Waltham Watch movements are frequently put into cases which are inferior both in quality of metal and workmanship.

For sale by all leading jewelers.

Positively no watches sold at retail.
